AN ITCHING PALM

No Cure for It. Other Forms of Itching Preferable.

There is no cure for an itching palm—the money kind. Even psoriasis, the new skin discovery, cannot help it. But when it comes to eczema, the most annoying of itching skin troubles, psoriasis will relieve it once and cure the worst cases in a few days. So with hives, rash, scabies, split toes, piles and scaly scalp, all of which are different forms of eczema, accompanied by severe itching and caused by imperfect digestion and careless diet.

Psoriasis comes in many forms, but fifty cents' worth will answer in curing any of the diseases mentioned. It can be had of any druggist. Tragle's make a specialty of it.

That results are immediate will be amply demonstrated overnight by the use of the experimental sample which the Emergency Laboratories, 12 West Twenty-fifth Street, New York City, will send free by mail in plain wrapper, to any one who will write for it.

Many experienced housekeepers will use nothing but Ivory Soap, even for washing the coarser things.

As for curtains, laces, blankets, dainty dress goods of all kinds—the housewife who cleans them with anything but Ivory Soap runs a greater risk of injuring them than most women are willing to take.

STATE COURT AS FIRST COURSE

United States Circuit Court of Appeals Goes on Record as Favoring Such Procedure.

INJUNCTION IS DISSOLVED

Alabama Commission May Now Put Into Effect New Railroad Rates.

NEW ORLEANS, La., April 6.—The United States Circuit Court of Appeals to-day dissolved the injunction ordered by Judge Thomas G. Jones in the United States District Court at Montgomery, Ala., restraining the State Railroad Commission from putting a 2 1-2-cent passenger rate and reduced freight rates into effect. The opinion of the Circuit Court of Appeals was concurred in by Justices Shelby and McCormick, Justice Pardee dissenting.

The court put itself on record as favoring an appeal to State courts as a first recourse and expressed regret that an opportunity had not been given the State Supreme Court of Alabama to pass upon the laws enacted by the Alabama Legislature.

The effect of to-day's decision will be to remove the case to the lower court at Montgomery for further proceedings. The litigation grew out of the enactment of certain laws in 1907 which provided for a maximum passenger rate of 2 1-2 cents a mile and a material reduction of freight rates on railroads within the State of Alabama.

The railroads attacking these statutes were the Western Railway of Alabama, Central of Georgia Railway Company, Southern and North Alabama Railway Company, Nashville, Chattanooga and St. Louis Railway and the Louisville and Nashville Railroad Company. Bills were filed to restrain the enforcement of these proposed rates upon the claim that they were confiscatory and also that the statutes denied the railroad companies the equal protection of the law.

Complaint was also made against provisions which made the charging of a higher rate of fare than that prescribed a misdemeanor and imposed fine and imprisonment upon any employee of a railroad who violated these acts.

Sweeping in Effect. The injunction which was to-day dissolved, was sweeping in its effect. By its terms the proposed rates were superseded and suspended until the final determination of the cause. All persons were restrained from instituting any suits against the railroad companies for refusal to comply with the provisions of the act, prosecuting attorneys were restrained from instituting criminal proceedings under these statutes, clerks of courts were restrained from performing any official duties, and sheriffs from making arrests in this connection.

Comer Is Pleaded. BIRMINGHAM, Ala., April 6.—Governor Comer said this afternoon: "I believe the dissolution of the injunction by the Court of Appeals and the putting in effect of the new rates at once will not hurt the railroads in the least. I regard the Alabama law and Alabama treatment of the corporations as the most conservative of any State in the Union."
